ABOUT ME

Why would a video game designer also have a degree in Diesel/Heavy Equipment? Well, I've always had a fascination with mechanics. If you don't do things properly, they'll just break again. I enjoy the precision and the satisfaction of surpassing expectations. However, it wasn't enough for me. Gaming has always been and will always be my true passion. That's why I made the decision to pursue video game design. Completing my Video Game Design Degree at Lake Washington Institute of Technology is just the first step for me. I'm ready and eager to learn.

CAREER GOAL

As a video game enthusiast with a passion for design, my career goal is to become a highly skilled and innovative designer in the video game industry. I aim to develop a

thorough understanding of game mechanics and player psychology to create engaging and immersive experiences for players.

SOFTWARE

Maya	ZBrush	Illustrator

EDUCATION

Lake Washington Institute of Technology: **AAS degree June, 2023: Video Game Design**

Lake Washington Institute of Technology: **AAS degree 2016 (Deans List): Diesel / Heavy Equipment Technition**

EXPERIENCE

Moving On, Summer 2022

Collaborated with a team of fellow students to successfully complete the development of a game that later went to PAX West in 2022. I problem solved, modeled, and textured assets for the project.

Boarding Party, Winter & Spring 2022

As a member of a student group, contributed to the final stages of a game's production, working together on design gameplay loops and mechanics and was also taken to PAX West in 2022.

Herc Rentals, Seattle February 2018 - 2021

Inspected, diagnosed, and repaired various types of equipment. In addition, I was the Safety Team Leader and led weekly and monthly meetings. Designed and fabricated projects to help improve shop productivity.

Plywood Supply, Kenmore June 2016 - February 2018

Service and repaired a variety Heavy Duty Diesel Trucks and Forklifts.

Jiffy Lube, Kenmore June 2014- June 2016

Performed Minor Repairs and General Maintenance on multiple types of vehicles.

Segale Properties, Tukwila June 2012- June 2014

Inspected, repaired, and performed General Maintenance on various pieces of equipment.
